Edexcel, BTEC and LCCI qualifications

Edexcel, BTEC and LCCI qualifications are awarded by Pearson, the UK's largest awarding body offering academic and vocational qualifications that are globally recognized and benchmarked.

BTEC is one of the world's most successful and best-loved applied learning brand, engaging students in practical, interpersonal and thinking skills for more than thirty years.

BTECs are work-related qualifications for students taking their first steps into employment, or for those already in employment and seeking career development opportunities. BTECs provide progression into the workplace either directly or via study at university and are also designed to meet employer's needs. Therefore, Pearson BTEC Higher National qualifications are widely recognised by industry and higher education as the principal vocational qualification at Levels 4 and 5.

Guidance To Students. You should read this information before starting:

- 1) Read the brief and think about what the assignment brief is asking. Make sure you understand the assessment criteria and nature of the evidence that must be produced. If you are not clear seek guidance from the tutor on the unit.
- 2) Guided by what the subject areas and issues in the task, you will conduct literature review to produce research findings that provide valid answers to the problem/subject/issues that you are inquiring.
- 3) Produce an appropriate assessment action plan that includes relevant research resources and timeframes. Submit this to the tutor for additional support or clarification if required.
- 4) You must be clear on the requirements to develop an appropriate specification to produce and communicate your work to the intended audience e.g. for written essays or reports you will organise the paper in sections:
 - 4.1. SECTION 1: Introduction – In a short opening statement you will outline what the task is asking and the aim/s of the paper. Further, you will briefly define the key terms in the assignment.
 - 4.2. SECTION 2: **Research Findings** - you will research the subject area/s and find answers and generate the knowledge to correctly investigate the issues raised. To carry out the research, apply a range of secondary research sources to elucidate the scope of the subject and support the requirements set out in the task. The research findings that you produce must be valid. This means that the findings must be relevant, and the sources used are appropriate. You will apply the research findings to your work to support, compare, analyse and validate the ideas and arguments. All arguments and ideas discussed must be credited to the source. That is, you must correctly state the name of the Author or source that you obtained the information from e.g. (Brown, 2016). The required referencing style is Harvard Referencing.

RESEARCH SOURCES: Secondary research sources that you can use to gather information for your work may include textbooks, journal articles, magazine articles (not factual accounts) and newspapers. Other sources that you may collect information from are *primary research sources* which include original first-hand accounts, legal and historical documents, results of experiments and market research data collection.

RESEARCH METHODS: You will further apply *qualitative and/or quantitative research methods* to evaluate the research findings from the primary sources. Qualitative is reasoning with arguments while quantitative is numbers and figures.

AVOID PLAGIARISING: You must reference all the sources in the body of your work (in-text). Further, create a reference page to list all these in-text sources that you cited in the work. Failure to reference your work in-text and on the reference page will result in a fail grade for the unit, as this is plagiarism (cheating/academic misconduct).
 - 4.3. SECTION 3: **Discussion** - this is substantive discussion of the research findings. Here you will carry out the command verb in relations to the task you are assigned. E.g. you may be asked to analyse, explain, assess, apply, justify, compare etc. These are different commands and will require different approaches. Also, if the research findings are not relevant to the task, no matter the quality and rigor of the discussion, the criteria will not be met because your discussion should be an expansion of the research findings. Hone your discussion to meet all criteria set out in the task.
 - 4.4. Section 4: Conclusion. Draw conclusions to form the basis for recommendations. Conclusions are summary of the main points in the work. Recommendations are future actions needed based on the conclusion/outcome.
- 5) Submit a pdf copy of your work on or before the published deadlines. Work past due is not acceptable under any circumstances except in extenuating circumstances which must be approved before the deadline expires.
- 6) Submit your work using the correct portal on iTutor. Work sent to incorrect portal will not be marked.
- 7) Students will be awarded either Pass, Merit, Distinction, Referred, Incomplete, or Fail grade. In practice, this means that a student must achieve all the required learning outcomes to be awarded pass grade or higher. Thus, for students to achieve Pass, they must achieve all of the requirements that define the Pass. To achieve a Merit, students must achieve all the requirements that define Pass and Merit. For Distinction, the student must achieve all Pass, Merit and Distinction requirements. Referred Grade is where one or more tasks does not achieve a Pass Grade. You will be given feedback and the opportunity to submit the corrections at a future time agreed with your Supervisor.
- 8) Failure to submit any part of an assignment will result in the work marked In-Complete. In-complete then changes to Fail. Avoid fail grade at all cost. In-complete (IC/NC) and Fail Grade (F) mean that you must pay to take over this unit/course. Here are the ways to fail: 1) not doing the working at all; 2) not attempting all the tasks listed as P (e.g. P1, P2 etc), 3) getting over 60% of the tasks as referred grade; and 4) plagiarising. Historically, less than 5% of the class will Fail.

LO3. ASSIGNMENT

OBJECTIVES OF THE ASSIGNMENT

LO3. Use contemporary examples to demonstrate both the positive and negative influence/impact the macro environment has on business operations

CASE STUDY AND SCENARIO

Use an organisation that you are familiar with to address tasks 3 and 4.

ASSIGNMENT THREE: TASKS

P4. Identify the positive and negative impacts the macro environment has upon business operations, supported by specific examples.

- 1) Define the key terms: business operations, micro environment of the business, and macro environment of the business
- 2) Research and identify the various factors of the macro environment of business using the PESTLE model.
- 3) Identify the positive impacts that each PESTLE factor has upon business operations. Give supporting examples that show how **each** of the PESTLE factors are positively impacting a specific organisation.
- 4) Identify the negative impacts that each PESTLE factor has upon business operations. Give supporting examples that show how **each** of the PESTLE factors are negatively impacting a specific organisation.

OPTIONAL FOR HIGHER GRADE. This is NOT a separate task. To achieve merit grade, for P4 you must also:

M3. Apply the PESTLE model appropriately to support a detailed analysis of the impact of the macro environment on a specific organisation. (*This criterion must be demonstrated at task 3 & 4.*)

SUBMISSION FORMAT

- ❖ Fully complete the Assignment Cover Page and use same as the front sheet/cover of your assignment.
 - ❖ Teams consisting of up to six members fully contributing members are allowed for P4 and M3 Assignment.
 - ❖ **P4 & M3** are oral presentations. You are required to develop and present a formal report to the Board Of Directors of a company using PowerPoint. Conduct research to generate knowledge which will form the basis for analysis of the scenario and context given in the Case Study. Your presentation should be referenced using the Harvard referencing system. Provide a bibliography using the Harvard referencing system.
 - ❖ Minimum number of positive forces to be identified for each of the PESTLE factors is 2. Minimum number of negative forces to be identified for each of the PESTLE factors is 2. Thus, you will submit 12 positive implications and 12 negative implications.
 - ❖ Each presentation is 20 – 25 minutes. To earn the grade students must be punctual for the allotted time.
 - ❖ Students must use standard PowerPoint Templates and the work must be professional in appearance and quality.
 - ❖ To be awarded a grade, students should not be reading but rather be professional, conversational and informative.
 - ❖ You **MUST** use the headers same as given e.g. P3 and M3. Do not reword them from the original.
 - ❖ Use page numbers throughout the report.
 - ❖ Header Style is Arial with titles being 36-point size. Text at a 28-point size, and sub-text at 18-point size.
 - ❖ Include the full plagiarism report after the reference page, and not just the score.
- Use www.citethisforme.com for referencing and www.grammarly.com for grammar and proof reading
